### GDMA Outstanding Student Designer:

Spring 2023

## Education:

### Southeast Community College

2021-2024

Program: Associate of Applied Sciences

Degree: Graphic Design

Graduation: Spring 2024

## Experience:

### Sandhills Global

Interactive Designer • 2024-Present

At Sandhills Global, I design and build websites using HTML, CSS, and WordPress. After communicating with the customer and sales representative I will take my notes, the logo, and other materials given to me to create a cohesive design that accurately represents the company. I work with the color, type, hierarchy, and spacing, paying attention to every detail to create a design that is easy for a customer to navigate and highlights what the company offers. I will also create body copy and headings for the website as well as meta descriptions and titles for SEO.

### Unanimous

Intern • January 22nd-February 9th 2024

At Unanimous, I collaborated with my coworkers to concept ideas for a postcard, website and logos. I organized my projects and communicated with my boss on what I would work on each day. After organizing images for a photo shoot, I presented them to the company. I created a cohesive set of icons for Unanimous, and paying attention to the spacing, I helped them update their envelope. When concepting website, postcard, and logo designs, I focused on the spacing, colors, and typefaces to create cohesive designs for each company.

### Southeast Community College

Librarian • 2021-2024

As a librarian, I communicated with the students who needed help finding a book, using the printer, or reserving a study room. I helped organize the anatomy models, the books on the shelves, and the magazines. I would also go through the children's books at least once a week to make sure they were all in order.
